

House Décor and Upgraded Options aboard Royal Princess

Included in all our yacht packages are house linens, centerpieces, standard china, with various modern and organic elements which give warmth throughout the yacht. For many charters, this simplicity works beautifully. However, you may want a more specialized look. We now have a complete one stop design program.

Our design specialist, Kathleen Brochin, can work side by side with you to bring your own personal vision to life. This includes custom centerpieces for various table tops including dinner, high tops, bar, as well as specialty linens, lighting, balloons, custom rental furniture, signage, table runners, logo placements, and themes.

While we do allow guests to bring on their own centerpieces and other décor items, please understand that our staff comes onboard three hours prior to charters to set up the basics for each event. Any supplemental time needed for décor preparation is an additional minimum charge of \$500 for set up. In other words, your centerpieces need to be already put together for simple placement on tables. If you are providing special linens or napkins, they must be ready to go. Removal of furniture also involves additional time.

House Linens: (included in all packages) Ivory Poly Cotton Linens and Ivory Napkins
